SMALL TREASURES, GREAT STORIES

“
*A coin shines not only for its metal
but for the stories it holds*

*The **2025 Coin Collection** is an exciting journey through Italy, a tribute to its extraordinary artistic, cultural and natural heritage. Each coin is a small treasure that contains remarkable stories, telling of characters, places, values that make our country a unique and precious mosaic. From the solemnity of the **Jubilee 2025**, to the journey towards the Olympic and Paralympic Winter Games **Milano Cortina 2026**, the collection is shaped as a bridge between past, present and future, celebrating Italy in all its excellences. Art finds its apex in the tribute to the timeless genius of **Michelangelo**, celebrated with an extraordinary 1 kg silver coin that is pure sculpture, while the first modular coin is dedicated to the return of the **Amerigo Vespucci** from its world tour, a perfect meeting between tradition and innovation. The unmistakable Italian creativity is also expressed in music, with the homage to one of the most poetic songs by **Renato Zero**, “il Cielo”, and in the field of production, with the issues dedicated to important symbols of Made in Italy, such as **Automobili Lamborghini**, pure power, design and performance, or like **Campari**, a historic brand that continues to spread the Italian joy of “being together” all over the world. These are just some of the wonderful numismatic creations of a Collection that broadens horizons and embraces historical celebrations, notable figures, social themes, cultural riches and food and wine specialties. Browse the catalogue and be captured by our works of art, telling unique stories, transmitting emotions, and preserving the heritage of a country that continues to enchant the world.*

dal conio di Gerico
ho visto anche la mia
Palestina,
le mura del marmo
erano le mura di Gerico
e una pozza di acqua infestata
ci ha battuto tutti
la gente era come
i parisi erano in alto
e era anche il Mezzogiorno
contro tra le folle
un pazzo che si teneva al cielo
tutte le sue anime in Dio.

Ma tutti brontolavano
erano come gli acelli
e non tanto unirete
sicuro ci imprigionava
ma andavamo verso le mura
le mura di Gerico Signore
e tirate il Salvatore.

Fummo lavati e sepolti,
adoravamo di incenso.
E dopo quando amavamo
ci facevano gli elettroci
perché dicevano, un pazzo
non può amare nessuno.

Ma un giorno da dentro
l'avevo
anche io mi sono ridestata
e anch'io come Gesù
ho avuto la mia resurrezione,
ma non sono salita nei cieli
sono discesa all'inferno
da dove riguardo stupita
le mura di Gerico antica.

Designer: Claudia Momoni

COMBATING VIOLENCE AGAINST WOMEN

Together with Women and against all forms of violence, the message of this coin resonates loud and clear, as bright as its colours. The red shoes, symbol of dignity and determination, intertwine with the circles of life and the profound verses of Alda Merini's poem convey a vibrant message of hope and rebirth ... "da queste profonde ferite usciranno farfalle libere" (from these deep wounds free butterflies will rise).

NUMISMATIC GLOSSARY

Proof

The finish of a coin is defined **Proof**, because of the extremely **shiny effect** of the flat parts (like a mirror) that contrasts with the opaque effect of the relief. Proof coins are minted one by one, using dies previously polished with diamond pastes.

SU

SU stands for **Special Uncirculated**. These coins are the best part of a standard production, made with brand new dies. The designs and writings are well defined, and the finish is uniform. The production is carried out with a **reduced press speed**, compared to circulating coinage, to ensure a better definition of the product.

Reverse Proof

Reverse Proof (RP) coins offer a fascinating reversal compared to Proofs. Unlike classic shiny coins, in which the design elements shine on a perfectly polished, reflective background, RP coins have an **opaque background** that highlights the shiny elements in relief.
